SUMMARY

Passionate junior full-stack developer proficient in HTML, CSS, JavaScript, React, and Redux, specializing in creating responsive web designs and applications. A collaborative team player, I prioritize effective communication, attention to detail, and continuous learning. My positive attitude and strong work ethic drive successful project outcomes. Eager to expand my knowledge, I actively seek opportunities for professional growth. Seeking a dynamic team that values innovation and offers mentorship, I aspire to contribute my technical skills and enthusiasm to create impactful and innovative solutions.
